A na IP routingu už stejně nezáleží

Today's Internet:

- Names Matter
- The DNS Matters
- Addresses - not so much
- Address-based Routing - not so much

Geoff Huston

Inovujeme?

- Co je důležitější? IPv6 a nebo NAT pro IPv4?
- Už jsme vypli STP?
- Kde je Trill / SPB, OpenFabric, RIFT?
- SDN? OpenFlow? WhiteBox networking gear?
- MPLS → SRv6 ?
- BGP origin security: RPKI – a co bude dál?
- DevOpsové mají ELK, Loki, Prometheus, chatboty na management K8s...
- Co síťaři?: SNMP
